HOW TO LOAD ANY PREPAID CARD WITH DIRECT DEPOSIT METHOD PART 1

Hello there, so today am going to teach you guys the easiest way to load a prepaid card using the direct deposit method.

One important thing y'all need to realize is that online jobs are seasonal and so if you want to stay making money online, you also need to be dynamic and not spend all your life on one method. For example, back in the days it was quite easy to generate a cc information to use for carding but these days such shit don't work no more; likewise, it was easy back in the 2010s to be loading an account with mobile deposit and Ach,
we could even use any info to create check and will still reflect buh these days even live checks don't reflect, some get placed on hold and some even charge back b4 client is able to withdraw money; these days 3rd party site like mint all ask for email or phone verification b4 you can check micro deposit for ach transfer, and so

loaders who do only these 2 types of jobs always end up messing up people's account and make peanut from all the efforts.MD and ach is the easiest way to lose ur client or get her arrested cos bank will lock her account after charge back and she will be in big trouble.

Now you can only call yourself a real loader if you can do any of these jobs bcoz these jobs don't charge back and you can make over $50k with them

1. Alibaba Wire transfer
2. BEC transfer (business Email Compromise)
3. Swift Code wire / Bank wire transfer
4. Server to Server / IP to IP transfer
5. DIRECT DEPOSIT transfer

And today am gonna teach y'all how to use Direct deposit to load your prepaid cards and you can also use same method to load th bank account and it doesn't charge back,only thing owner of log can do is curse you for making him lose thishuge amount money and I don't think white people know how to curse lol.

DIRECT DEPOSIT TUT

Even tho the name sounds a bit tough,it very easy to do and is all about adding the receiver or person to receive the money as “payee” and then sending payment to that “payee”. All banks have bill pay options but only a few banks like Huntington,Woodforest,USAA,bluefcu,indianafcu etc. have direct deposit option in addition to their bill payment.So nough of the plenty talking, let start with the money making tutorial:

Prepaid TopUP tutorial is divided into 2 parts

PARTS 1: How to Add Prepaid Card info as the Payee

PARTS 2: How to make payment to the Prepaid Card/Payee

1.First of all, you can connect your socks or rdp or vpn an

then login the hacked bank account info you bought, I have an Huntington bank login with me so that what am using for the tutorials, I posted other bank names which can do this same direct deposit on my channel. This job can also be done on mobile phone too.

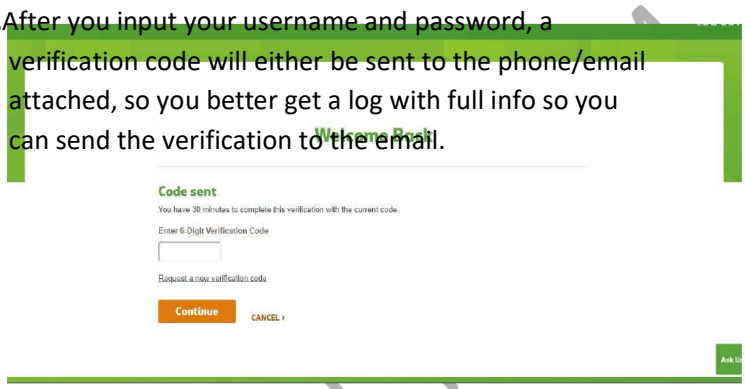
@kaushal_pal19284

2.After you input your username and password, a verification code will either be sent to the phone/email attached, so you better get a log with full info so you can send the verification to the email.



3.Once the verification code is sent to the email attached, you get it and input it here, then you click continue.

4.This is the next page which will come after the verification page, choose "I'm on a private device. Yes, please register." So you won't be asked for verification code the next time you try to login.

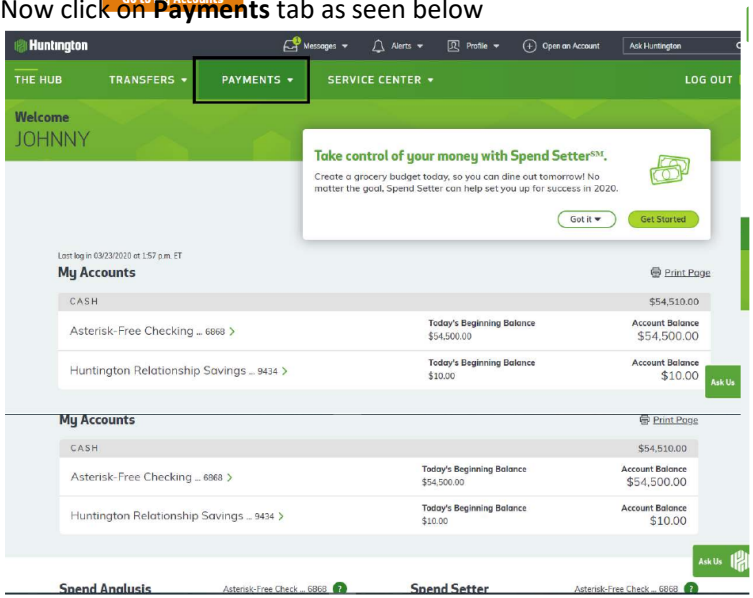
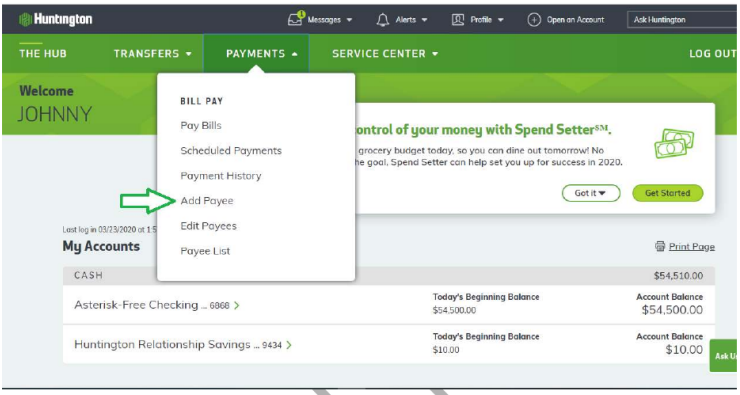
5.This is how the homepage/dashboard looks like after you have successfully logged in.

6.Now click on **Payments** tab as seen below



7.Click on '**Add payee** 'from the drop-down menu



8.Click on the payee Type, and choose **Pay a person**

@kaushal_

9.Fill the info as have done below, with the name you can put any name there, doesn't really matter, put your client phone number there. Now here is the trick: Tick the small box

there, that the option for Direct deposit and it only banks which do direct deposit that gives this option.

10.After you have ticked the small box, you will be asked to input the Account number and routine number of the prepaid card, this is because electronic payment is sent directly to the prepaid card.
